

Nam Nguyen

Lead front-end developer · applying for Senior Software Engineer, Web Development

hainam2511@gmail.com

Uppsala, Sweden

I have spent seven years leading the front end of a real-time multiplayer client — shared state, reconnection, latency, a rendering engine embedded in a web app. That is the same shape of problem as a video call.

EXPERIENCE

Wasabi Productions

Apr 2019 — present

[Lead front-end developer · Uppsala, Sweden](#)

- Game client for online mahjong, built for the Chinese and Japanese markets.
- Pivoted the product through every platform it has had: web app, to Unity, and now React Native serving both web and mobile.
- Pioneered agentic programming at the company — built the cross-team AI harnesses and drove adoption beyond my own team.
- Feature design, UX and responsive design, advanced Mahjong bot design (4–5 Dan), the bot swarm controller, and automated QA.
- Worked directly with designers, backend, marketing and investors — a vertical grasp of the whole product, and an active say in what gets built next.

D&A Research

2014 — 2018

[Data and algorithms research · Uppsala · Hanoi](#)

- Graph mining, contributed to the Multinet open-source library — InfoLab, Uppsala University, 2018.
- Sensor network optimisation: two publications, one book chapter, one best-paper award — MSO Lab, HUST, 2014–2017.

Bkav Corp.

Sep 2013 — Nov 2015

[C++ developer · Hanoi, Vietnam](#)

- Researched and built eToken, a hardware security token for signing and verifying digital signatures.
- Delivered a beta version meeting the relevant ISO standards.

SKILLS

Agentic programming: cross-team AI harnesses at Wasabi, and this entire site — built in a week by one person and an agent

Test automation: 75–90% unit coverage, AI-assisted, plus automated QA over the core UI flows

Real-time clients: shared state, reconnection and latency on a live multiplayer game — the same shape of problem as a video call

Responsive & accessible UI: roving tabindex, live regions, reduced-motion, keyboard-only paths

Performance: an initial-load ceiling enforced in CI so it cannot rot between releases, asset optimisation and lazy loading

Over 10,000 lines: TypeScript, JavaScript, C, C++, C#, Dart, Java

Over 1,000 lines: Erlang, SQL, Python, Matlab, R, PHP

Tools & frameworks: React, Unity, Flutter, Figma, UML, Spark, MySQL, Git

EDUCATION

Uppsala University 2016 — 2018
[MSc, Computer Science · Uppsala, Sweden](#)

Tokyo University of Agriculture and Technology 2015
[Research exchange · Tokyo, Japan](#)

Hanoi University of Science and Technology 2011 — 2016
[BS, Computer Science · Hanoi, Vietnam](#)

Teaching assistant: Database Design (HT16, HT17) · Advanced Software Design (HT17) · Genetic Algorithms (2014 — 2015)

Languages: Vietnamese (native) · English C2 · Swedish C1

OFF THE CLOCK

Stand-up comedy: Performed at Fyris Komedi and Comedy Nation. Competed in Uppsalas Roligaste 2026.

Acting: Short films: Tomma Händer (.MOV Filmfestival 2026), The Darkest Hour, Don't Cry Over Spilled Milk.

Uppsala Zombie Walk organiser: Website, marketing, makeup, logistics and the rest of it. Featured on [SVT](#) and [UNT](#).
